

# Khushi

Haryana, Yamuna Nagar

khushikamboj123456@gmail.com | 9306605503 | linkedin.com/in/khushikamboj5 | github.com/Khushi-Kamboj

## PROFESSIONAL SUMMARY

Aspiring Software Development Engineer Intern with hands-on experience in full-stack web development. Proficient in Java, JavaScript, and MERN stack with hands-on experience building scalable applications, RESTful APIs, and AI-powered features. Passionate about writing clean, efficient code and solving real-world problems in fast-paced engineering environments.

## EDUCATION

**Chandigarh University**

*Bachelor of Engineering in Computer Science*

Aug 2022 – Jul 2026

*CGPA: 8.5*

## TECHNICAL SKILLS

**Programming Languages:** Java, JavaScript (ES6+), Python

**Frontend:** HTML, CSS, React.js

**Backend:** Node.js, Express.js, RESTful API Development

**Databases:** MongoDB, MySQL, Firebase Firestore

**Tools & Platforms:** Git, GitHub, Postman, Firebase, Make.com

## PROJECTS

**Zo-moto – AI Powered Food Ordering Platform**

*React.js, Node.js, Express.js, MongoDB*

[Live Link](#)

- Engineered a full-stack food ordering platform serving **40+ users** with modular frontend and backend architecture
- Designed and implemented **10+ RESTful APIs** for authentication, order management, and user workflows
- Integrated AI-powered conversational ordering assistant, reducing manual user input steps by **40%**
- Optimized backend API response times by **30%** through efficient database queries and schema design
- Performed API testing, debugging, and logging using Postman to ensure reliability and scalability

**AI Powered Revision Preparation Tool**

*React.js, Firebase Firestore, Cloud Functions, Gemini API*

[Live Link](#)

- Developed an AI-driven study planning platform supporting **50+ users** with personalized revision schedules
- Built scalable backend services using Firebase Firestore and Cloud Functions for real-time data synchronization
- Integrated Gemini AI API for intelligent content generation and adaptive revision recommendations
- Improved user engagement by **35%** through responsive UI and automated notifications

## EXPERIENCE

**Software Engineering Intern**

*Metacrafter*

Jun 2024 – Aug 2024

*Remote*

- Contributed to backend development of a decentralized banking system using Object-Oriented Programming
- Assisted in designing and testing REST APIs, improving system stability and maintainability
- Collaborated with cross-functional teams in an Agile environment to debug and enhance features
- Proactively acquired new technical skills while working on unfamiliar backend modules

## ACHIEVEMENTS

Strengthened problem-solving skills by solving **300+** Data Structures and Algorithms problems on LeetCode

Published a research paper on Zo-moto highlighting a **40% improvement** in order processing efficiency

Hands-on experience building AI automation workflows using Make.com

## CERTIFICATIONS

Full Stack Web Development Certification – NxtWave (2025) [Certificate]

Java Excellence Certification – Coding Ninjas (2024) [Certificate]
